# A search for the best materials

Thanks to technology's latest innovation in inks and enamels, we can recreate marble's unique personality on a ceramic surface. Accessible timeless beauty joint to the technical improvements in durability, cleanliness and ceramic resistance.

We have traveled the whole world in order to find the most unusual, precious marbles, taking into account the latest aesthetic trends in architecture and interior design. We have recovered rare marbles, whose extraction means a major environmental impact. Thanks to our manufacturing technology we make materials that would be impossible to obtain otherwise accessible for all. From the passion to offer the most exclusive, unique materials, APE's ceramic marble collections are born.

Gracias a las últimas innovaciones de la tecnología digital de tintas y esmaltes, conseguimos recrear la personalidad única del mármol sobre una superficie cerámica. Belleza atemporal accesible unida a las mejoras técnicas de durabilidad, limpieza y resistencia cerámica.

Hemos recorrido el mundo entero para encontrar los mármoles más insólitos y preciados, teniendo en mente las últimas corrientes estéticas en arquitectura e interiorismo. Hemos rescatado mármoles escasos, cuya extracción supone un fuerte impacto en el medioambiente. Gracias a nuestra tecnología de fabricación ponemos al alcance de todos, materiales que de otra manera sería imposible conseguir. De esta pasión por ofrecer los materiales más exclusivos y únicos nacen las colecciones de mármol cerámico de APE.

# Classic and contemporary

For centuries, marble has been an inspiration to architects and sculptors. It is a very noble material that fascinates with its elegance and all that it means. We have created a series of collections of ceramic marble that capture the historical essence of marble, but adapting it to contemporary aesthetic trends.

A design with the seal of elegance that only the real classics possess. Everlasting and eternal.

El mármol ha sido la inspiración para arquitectos y escultores desde hace siglos. Es uno de los materiales más nobles que fascina por su elegancia y todo lo que significa. Hemos creado una serie de colecciones de mármol cerámico que capturan la esencia histórica del mármol, pero adaptadola a las corrientes estéticas contemporáneas.

Un diseño con el sello de elegancia que solo los grandes clásicos atesoran. Imperecedero y eterno.

# Marble eco-fascination

Marble has become a trendy material. Nevertheless, its extraction implies an important impact on the environment. Thanks to the most advanced technologies in ceramic manufacturing, at APE, we have obtained a series of collections that reproduce to the finest detail of the aesthetic and tactile characteristics of this material, with an environment-friendly result. Thus, we can propose the experience of scarce marbles whose extraction is highly limited.

El mármol se ha convertido en un material de tendencia, sin embargo su extracción supone un importante impacto en entorno medioambiental. Gracias a las más avanzadas tecnologías de fabricación cerámica, en APE hemos conseguido una serie de colecciones que reproducen hasta el más mínimo detalle de las características estéticas y táctiles de este material, con un resultado respetuoso con el medio ambiente. De esta manera podemos proponer diseños de mármoles escasos cuya extracción está altamente limitada.

**A LAST GENERATION  
CERAMIC MARBLE**

We apply the latest technologies in ceramic digital decoration in order to obtain durable collections, which are capable to capture the timeless beauty of marble. At the same time, we put in an advanced material that adapts every millimeter to the new necessities of interior design and architecture: a variety of formats and finishes, excellent mechanic resistance, resistance to acid and abrasion, design for indoors and outdoors and special pieces for treads, swimming pools and high traffic spaces...

Without losing a bit of its charm, APE's ceramic marbles offer a more resistant material, which is adapted regarding the natural alternative.

**UN MÁRMOL CERÁMICO DE NUEVA  
GENERACIÓN**
